

Solutions

A Revolutionary Anthem

Written by Sophia Dady

Capo 3

A^m - D^m - F - G^{x2}

A^m D^m
Fourteen thousand miles away they judge because they can,
F D^m
in their plush offices, they couldn't give a damn,
A^m D^m F
No reason to believe that there is a threat to man!

A^m D^m
For years we've been presented with the scientific papers,
F D^m
Books and documentaries are warning of the dangers.
A^m D^m F
For those in the field, we sing a different song.

A^m G F^{m7} D^m
Can't you see? The Earth can't breathe.
A^m G F^{m7} D^m A^m D^m F G
The birds can't feed their young any more, it's nature's law.

A^m D^m
We're playing for a team. A team that is the same,
F D^m
not working on our own behalf for personal gain.
A^m D^m F
The right time isn't in the future, it is now!

A^m G F^{m7} D^m
Don't you see? It's not about me.
A^m G F^{m7} D^m A^m D^m F G
We all must pull together more, it's nature's law

*C G D^m F
Find solutions that's the key! Join your voice and sing with me,
C B^b F
The world deserves our respect.

C G D^m F
Solutions come so easily when you focus on these three:
C B^b F A^m D^m F G * last A^m D^m F G end A^m
clean, re pair, protect, our world! our world our world
